Open Letter to Voters of Rochester

A town like a house must be planned and built -- but there is one difference, if the house is poorly planned and badly constructed it can be torn down -- such is not the case with a town. Therefore, it is important that a town be carefully planned and built so that the finished product will be sturdy enough to stand the rigors of time.

The town is then in effect a "Home" to all those who reside there and this "Home" is planned and built by you, the voters. On October 12 you will be asked to decide whether or not you want to change the structure of your "Home" -- you will be voting on whether or not you want to have 850 acres of your "Home" land used for a Racing Complex.

What would an addition such as this do to your "Home"? First of all it would mean greatly increased traffic which would mean increased costs for road maintenance. It would be encouraging the defacing of your property with litter and other refuse -- another costly problem. Also those natural resources, clean air, clean water, untouched woodlands and the animals that inhabit them, would be placed in serious jeopardy. We certainly would not want to have to pay the penalties being imposed on many towns and cities which

have resulted from the abuse of their natural resources. In other words, if we allow this facility to be built -- we will be destroying one of the largest undeveloped areas in South-eastern Massachusetts.

Now let us look at this from another point of view. The Enabling Statute states that a town may pass zoning by-laws or amendments, theretofore: "For the purpose of promoting the health, safety, convenience, moral, or welfare of its inhabitants." We cannot see where a racing complex would promote any of these. In fact, health, through unclean air, water and noise pollution could be impaired; and the increased traffic would result in the possibility of more accidents causing injury and affecting our motor vehicle insurance rates.

From a financial standpoint, property in the area would be devalued and certainly those within the immediate area would be well within their rights to demand a tax reduction which would cancel out any ad-

To sum up, you would not consider defacing or jeopardizing your personal property in this manner and it is from this viewpoint that you should consider this issue.

test ourselves from these elements is not the construction of a racing complex; but rather, increased efforts by town officials and private citizens to go out and promote our town as an ideal place for desirable light industry. In this manner the tax base would be broadened and equally important full-time jobs would be created which will encourage our young people to stay in town instead of locating elsewhere.

Secondly, we should seriously consider the possibility of purchasing a large tract of land, such as the one in question, and turning it into a town park such as the Bourne Scenic Park. A park such as this would bring revenue into the town and allow us to maintain a beautiful, as well as historical, part of our town in its original form.

We sincerely hope you will go and vote at the Town Meeting at the Rochester Memorial School on Tuesday, October 12, at 8:00 P.M. We ask that you keep this in mind -- VOTE NO ON THE DRAG STRIP - VOTE YES FOR ROCHESTER

Sippican Seniors' Club

A lively group of 60 elder citizens of Marion
attended the first meeting of the Sippican
Seniors' Club on September 28th at St. Gab-
riel's Church parish hall.

Mr. Phillips C. Noyes, who has been elect-
ed president, regretfully presented his resig-

dent, conducted the meeting and she was
authorized, together with the secretary, Mrs.
Roderick Hilton; the treasurer, Otis C. Sever-
ance, and William A. Clough, chairman of
the Council for Aging, to present nominations
for the office of president at the next meeting.
The same group will also present by-laws to
be voted on at the same time.

Committee chairmen were appointed as fol-

Meetings will be held on the first and third Wednesdays of the month at 2 P.M. The next meeting will be held on October 20th at 2 P.M. in St. Gabriel's Church parish hall. All Marion residents who have passed their 60th birthdays are invited to join the Sippican Seniors. Many excellent programs, both educational and recreational, are being planned. The size of the membership can influence these programs to a great extent, so join now.

Mattapoisett Grange

The regular meeting of Mattapoisett Grange will be held Thursday night, October 7th, with the worthy master Mark Breton presiding.

The lecturer's program will consist of a paper bag auction. Members are asked to put an article in a bag, seal or staple it, at a value of 50¢ or more. Mark Harris will be the auctioneer. Proceeds are to be used towards the 75th anniversary booklets.

Mr. and Mrs. Earle Wilson will be in charge of the social hour.

Why digging lawn weeds is a thing of the past.

TURF BUILDER PLUS 2 is made especially for people who hate lawn weeds and love healthy green grass. It's easy to use—nothing to mix, measure or spray. PLUS-2 clears out most common non-grass weeds *roots and all*, so they can't grow back.

And that's not all. PLUS-2 also full-fertilizes your grass. Makes it grow greener, thicker, sturdier. The time to spread PLUS-2 is now. Then sit back and enjoy a better lawn this fall and next spring too.

Letter to The Editor

Answer must be made to certain statements
in your editorial in favor of the proposed
dredging by the Indian Cove Trust, which is
actually a real estate business to sell land
and not a trust to preserve the natural beau-
ties of our town. On the contrary, the dredg-
ing which they propose will cut through a
natural sand bar used by residents, especially
youngsters, of the area for safe swimming and
playing. The area which the so-called Trust
proposes to dredge is the very location of the
best shellfishing in Aucoot Cove, and is, of
course, available to all of the residents of
Marion, Mattapoisett and Rochester who share
the water rights. The dredged sand the so-
called Trust has proposed to use as fill in its
land development, which includes a proposed
beach. Here then, we have a situation where
material may be taken for private use from an

area which has belonged to the public since colonial days for shellfishing and recreation. In the process the whole ecological balance of Aucoot Cove is endangered.

A newly passed bill has designated our waters as part of the Ocean Sanctuaries. Under the provisions of this bill, sand is not to be removed from the sea floor. Those of us interested in the vital problems of ecology would hope that you, Mr. Jason, and all of the other concerned citizens in our area would rejoice in such a bill and

would want to see it carried out here and elsewhere without exception.

Mr. Jason, you and others, who are so willing to believe that the dredging proposed by Indian Cove Trust is harmless, should take your own advice and investigate the whole situation more thoroughly. You will find among other facts that the dredging done at the Aucoot boatyard in the past was minute compared with the scope of the pre-

sent plans (even with the latest changes in them) and that past dredging did not lacerate the sandbar where the shellfish are. A boatyard has existed at Aucot for over twenty years so the dredging is obviously not necessary to its operation.

Those of us who oppose the proposed dredging do so not only to protect an area which is still unspoiled but also to avoid a precedent in this locality for future takeover of public rights for private gain. We urge you, Mr. Jason, and those of your readers who are interested in ecology, particularly in the preservation of the shellfishing and the conservation of the natural beauties of our area to write before October 15th to the Department of the Army, New England Division, Corps of Engineers, 424 Trapelo Road, Waltham, Massachusetts 02154 in regard to NEDOD-P #72-55 protesting the proposed dredging by the Indian Cove Trust.

in Action. Goldwater charged on television and was quoted in the press that Kennedy said that "if necessary he would have crawled into the room" in Paris to negotiate the release of the POW's. If this statement represents the attitude of the Massachusetts' Senator then he not only insults the sacrifice and suffering of these POW's but he also is unfit to hold a national position of responsibility. For an American to state that he would crawl to bargain with the Communists, for any reason, is a disgrace. For a Senator, it is incredible.

Bulldogs Win Again

OR OVER DIGHTON-REHOBOTH 34-12

The Bulldogs of Old Rochester outclassed the Falcons of Dighton-Rehoboth on their home field Saturday as they completely dominated the game. Old Rochester drove to the visitors' 11 in the opening series. They lost the ball to the Falcons at that point but on the first play the Falcons fumbled and O.R. recovered. Four plays bulled the ball over as Julio Andrade rushed in from the one-yard line. Quarterback Joe Bettencourt scored a 2-point conversion with an end run.

The second score was set up with an interception by Gerry Mullane midway in the second quarter. The Bulldogs scored after a 9 play drive that covered 51 yards. Richie Silvia scored after spearheading the drive with 3 carries. The conversion attempt failed.

In the second half, Old Rochester got the ball on a turnover on their own 40. Richard Reilly picked up 15 yards in two plays. After an off side penalty against O.R. Reilly was sprung on a pretty trap play and raced 42 yards to score. Silvia assisted with a fine block

on the 15. Andrade converted to make the score 22-0.

Dighton-Rehoboth then mounted a drive of 60 yards. Malaguti scored on a run around left end to cap a 7 play effort. The drive was highlighted by Jim Weeden's 15-yard effort. The point after try failed and the score was 22 to 6.

The Bulldogs then mounted another scoring series that covered 56 yards. The score was made on a Bettencourt to Paul Reilly pass of 10 yards to make the score 28-6.

Malaguti and Weeden then mounted a running attack that carried the Falcons 76 yards. A pitchout to Weeden scored and made the total 28-12. The conversion failed with 2 minutes left in the game.

Tom Wood, sophomore quarterback, replaced Bettencourt, and as time was running out, he passed to end Dave Young who gathered in the 15-yarder to score as the game ended. The conversion failed and the final score was 34-12.

Art Center

PAINTINGS ON EXHIBIT AT ART CENTER

The Marion Art Center proudly announces an exhibition of the recent paintings of Glen Krause October 9th thru 29th. An opening for members will be held on Friday, October 8th. This will be the final show in the 1971 season. The Art Center feels very fortunate to be able to show some of Mr. Krause's work.

Glen Krause is a nationally known painter and print maker. His work is included in the permanent collections of the Boston Museum of Fine Arts, the Addison Gallery of American Art, The DeCordova Museum and the Nelson A. Rockefeller Collection to mention just a few. Mr. Krause's paintings and prints are also owned by many colleges and universities throughout the United States. He has been associated with various educational institutions as art instructor at the Art Institute of Chicago and more recently at Phillips Exeter Academy where he was art director from 1947 to 1965. The Krause's home is near Exeter, New Hampshire where he continues to paint in a very attractive studio.

The awards and prizes that Glen Krause has accumulated would take up the better part of two pages. Suffice it so say that he has been recognized by The International Graphic Arts Society, The Art Institute of Chicago and many shows in the New Eng-

FALL CONFERENCE OF DAR

At the recent Fall Conference of the Massachusetts Daughters of the American Revolution in Andover, Mrs. C. Joseph Nowak of Marion (Regent of Fort Phoenix Chapter and delegate) led in the recitation of The American's Creed, as Massachusetts Americanism Chairman. This creed is recited at all DAR meetings, local, State and National, and was written by William Tyler Page.

Speakers at the Conference included State Representative Francis Hatch, former Congressman Lawrence B. Curtis, and defeated candidate for the United State Senate Josiah Spaulding. Music was provided by the Fort Devens Band.

The Fort Phoenix Chapter, DAR would welcome new candidates for membership. The chapter registrar, Miss Emma Mayhew, 386 Mill Street, New Bedford, would be happy to

Employment for Disabled

PRESIDENTIAL COMMITTEE IS TWENTY-FIVE

The President's Committee on Employment of the Handicapped will begin observation of its second quarter century of promoting employment for the disabled during National Employ the Handicapped Week, October 3-9, 1971, Chairman Harold Russell announced.

Founded by President Harry S. Truman in 1947, the Committee grew out of the first National Employ the Physically Handicapped Week in 1946. According to Russell, that first NEPH Week marked the beginning of cooperation between industry, government, and the public to get the handicapped into gainful employment.

Last October, President Nixon signed into law a bill which changed the name of the observation from National Employ the Physically Handicapped Week to National Employ the Handicapped Week, in order to officially promote employment opportunities for all the handicapped, mentally, as well as physically.

"Each President since Truman has given complete support to the promotion of oppor-

tunities for the handicapped, and has lent enthusiastic support to the year-round effort to 'Hire-the-Handicapped,'" said Russell.

According to the Committee, nationwide awareness of the "Hire-the-Handicapped" campaign has been instrumental in acceptance of qualified handicapped people for competitive jobs. Since 1947, 8 million disabled men and women have found work.

Since its founding, the Committee has broadened its base of operation, said Russell. New funds and personnel have been allocated to study the relationship between handicaps and socio-economic disadvantage.

"The Vietnam veteran is also providing new challenge to the Committee," added Russell. "The conflict in Southeast Asia has generated more than 225,000 disabled veterans. Many of them are 100% disabled, untrained, and inadequately educated. They are ill-prepared to find work, and yet it is crucial that they readjust to life in the States. We are trying to find a solution."

Other groups with whom the President's Committee is involved include: sheltered workshops, women's clubs, youth organizations, education committees, rural areas groups, employer organizations, labor unions, libraries, medical professionals, public service clubs, and environmental and architectural groups working to eliminate barriers to

the handicapped.

Backing the President's Committee locally is a network of 53 Governors' Committees on Employment of the Handicapped who coordinate activities for the disabled in each State, the Virgin Islands, Puerto Rico, and the District of Columbia. There are also numerous Mayoral Committees in towns and cities across the country.

During the quarter century since its inception, the Committee has relied on voluntary action by government, industry, and individuals who give their time and skills to improving opportunities for the handicapped.

"Despite our expansion of our activities since 1947, our basic goal remains the same," said Russell. "We want to see the right trained and qualified handicapped man or woman in the right job."

OCEAN DRIVE, MATTAPOISETT

offering group therapy to help those who want to quit smoking was held Tuesday, October 5th, from 7:30 to 8:30 P.M. at the New Bedford YWCA. These very informal meetings, conducted by Dr. George Grimes, are free and open to men and women of all ages. There will be discussions and a question and answer period. The group will meet Tuesdays and Fridays through November 5th. Registration is not required. Anyone wanting to quit smoking is urged to attend.

BUYING A SNOW JOB?

This article is about antennas. Many people don't know if they're getting more when they buy a better antenna. The answer is Yes. If you own a TV you want good reception. Good reception comes from a strong signal caught by your antenna. The design and size of your antenna makes a difference. As an example, a bargain antenna may get only 75 microvolts of signal power, where a well-designed antenna in the same place will get 150 microvolts of signal power from, let's say, a UHF channel. Let's put it this way: a weak signal will give you snow, a strong signal will give you a better picture, and chances are it will come through without any snow. A well-designed antenna will give you more microvolts of signal power and a better picture. If you or someone you know is looking for antennas, know the facts. Remember this is something you'll buy perhaps once. Don't accept any bargain "snow jobs".
